Study Guide For Hifz Students Exam

Throughout the year, we studied translations of some of the last ten surahs of the Quran, along with a short explanation of each surah. We also spent many days speaking about topics related to our *akhlaaq and adaab, the Qur'an, tawheed* and about the sunnah of the Prophet (sallahualahiwasalam).

- Students are expected to know the **translations of the surahs** we covered in class.(Surah Fatiha, Surah Ikhlas, Surah Asr, etc etc.
- Students should also review the *Subub-ul-nuzool(reason for revelation)* for those select surahs.
- Students should review their notes on the importance of **respecting ones parents**.
- Students should also recall the topic of **intention**. i.e. what sort of intention should we have as hifz students?
- Review your notes on the discussion we had as a class on the **sunnah of the prophet (saw)** and how it relates to different aspects of our lives (sunnahs of speaking, eating, hygiene, treating others etc etc)
- Try to recall some (or even one) basic logical proof/explanation for the existence of Allah (swt).
- Review the notes of when we discussed the divinity of the Qu'ran and its miraculous nature. What sets the Qur'an apart from all other books in the world ?
- Review notes that we shared as a class about who Allah (swt) and his messenger Muhammad(saw) are.
- Also, please review your notes from the explanations of the surahs we covered in class, along with looking over some of the lessons we derived from them.
